## Summary

I am a creative and friendly person pursuing my Bachelor of Fine Arts - New Media at University of Lethbridge. I am looking for employment at which I can effectively use my experience and interests while learning and preparing for a career in the future.

## Education

### University of Lethbridge

#### 2021- Present

- Completed four years of my Bachelor of Fine Arts - New Media degree, with a focus on Animation and Storytelling.
- Gained experience with Adobe Photoshop, Adobe Lightroom, Adobe Illustrator, 3Ds Max, Viscon BLADE, Unreal Engine, Gamemaker, Adobe Dreamweaver, InDesign, and Adobe Premiere Pro while working on solo and team projects.
- Programmed websites and gained proficiency in coding with school projects

## Experience

### Seeds of S.P.I.C.E. Early Learning Centre Inc.

#### May of 2023 -July of 2023

- Supervised and engaged with children ages 6 - 12 after their school ended until their parents were able to pick them up to go home.
- Planned a wide range and variety of activities that all of the children could participate in and enjoy.
- Created and demonstrated art projects then assisted children with patience and understanding.
- Provided and encouraged participation to maintain a safe environment.
- Maintained a clean and sanitary workspace.

## Interests, Activities, and Achievements

- Art
  - o Featured as an Emerging Artist at a local art show.
  - o Awarded the opportunity to be an Exhibitor at the 2021 Alberta University of the Arts Show Off! Competition and Exhibition.
  - o Exhibited at a public art gallery hosted by the University of Lethbridge Faculty of New Media twice.
- Story writing and Illustration
  - o Created several very substantive and creative stories with in depth character development in collaboration with friends
  - o Illustrated the characters from the stories in various scenes
  - o Presented the illustrations as panel art and reels on Instagram
- First Aid Certified
  - o Canadian Red Cross level C CPR/AED and first aid
- Coding
  - o Taken multiple coding classes in the past to learn how to create websites and video games
  - o Experience with Javascript, C++, and HTML
  - o Currently developing a game using current coding abilities in order to further expand knowledge in the field
